Waiver of Liability and Indemnification Agreement

I, on behalf of myself, my co-owners, my employees and invitees, do hereby waive any and all liability which the Pendleton Business Association, including Event Coordinator and the Town of Pendleton might otherwise have on account of any injury which I, we or any of us, might suffer on account of our participation in the Pendleton Christmas in Pendleton November 9, 2019.

I further agree to indemnify the Pendleton Business Association and the Town of Pendleton on account of any expense or claim which may be incurred by the Pendleton Business Association and the Town of Pendleton because of my or our participation in the Pendleton Fall Festival

The consideration for this release and indemnification agreement is the agreement by the Pendleton Business Association to allow me to participate in the downtown Pendleton area during the sale.

This waiver and indemnification agreement is binding not only upon the signers but also their business partners, heirs, assigns and business invitees.

THIS WAIVER AND INDEMNIFICATION AGREEMENT LIMITS CERTAIN RIGHTS OF THE SIGNOR AND ALSO CREATES LEGAL LIABILITIES. THE SIGNOR SHOULD READ THIS DOCUMENT CAREFULLY.

DATED THIS ___ DAY OF _____, 2019.

Pendleton Town Electrical Information Food Vendors

The Town of Pendleton has two (2) boxes they typically put out for events on South Pendleton Ave. Listed below are the NEMA designation and the number available of each. These hook ups are first come first serve by order of when your application is received & processed, so you will need to indicate the exact hook up you will need for the event on your application. There is absolutely no hard wiring into town-owned equipment! You are welcome to bring your own generators.

They have two (2) identical boxes they put out, so everything listed below is per box.

Each box has available:

One (1) NEMA 6-50 receptacle this is a 50 amp, 240 volt Receptacle

Four (4) NEMA L6-30R this is a 30 amp, 240 volt twist-lock receptacle

Eight (8) regular 20 amp, 120 volt duplex receptacles like everyone has all thru their home

Again, all available are first come, first serve by receipt of your application. Your order and side of the street will be determined by application receipt and power needs. If your needs cannot be met, you may provide your own generator if you would like.

Again, just match NEMA number to be sure you are compatible prior to applying. All the different electrical plugs and receptacles in the US have their own unique NEMA designation.

Example: The town has L6-30R (the R is for receptacle) it's a 30 amp twist-lock receptacle.....the vendor buys a L6-30P (the P is for plug) it's a 30 amp twist-lock plug that they put on the end of their cord and.... problem averted.

These are very common receptacles, plugs or "cord caps", as most people call them, are generally available at a home improvement store like Menards or Lowes. They are definitely available at any commercial electrical supply house.

Again, we DO NOT allow any hard wiring into town owned equipment.
